

ASSOCIATION OF MECHANICAL ENGINEERING

College of Engineering Pathanapuram

An association meeting was held on 30th July 2026 at the seminar hall of the academic block.

Agenda: Welcoming first years, Onam celebrations, membership and student chapters of professional bodies, social media team formation, upcoming MechFest (Promo plans, Mega events, Auto Show and Coupons), Science and Technology awareness quiz competition.

Minutes of Meeting

ATTENDEES:

1. Mr. Thulaseedharan R, Head of the Department, ME
2. Mr. Jignesh M, Assistant Professor, ME
3. Mr. Anoop KT, Assistant Professor, ME
4. Dr. Kishore Pradeep, Assistant Professor, ME
5. Mr. Muhammed Bukhari, Assistant Professor, ME
6. Mr. Anoop S, Assistant Professor, ME
7. Mr. Aswin B, Assistant Professor, ME
8. Mr. Sunil, Assistant Professor, ME
9. Students of S7 ME
10. Students of S5 ME
11. Students of S3 ME

MAJOR POINTS DISCUSSED:

1. About the Mechanical Engineering association
2. About the membership and student chapters of professional bodies
3. About Science and technology awareness quiz
4. About the organization of Stunt racing competition
5. About the organization of Mech Fest
6. About skill development courses for the underprivileged
7. About product development initiatives
8. About CAD lab development

DETAILED DESCRIPTION:

1. About the Mechanical Engineering Association

The requirement for a structured executive body had been taken into consideration and therefore, the executive members were selected.

General Convener	- Mr. Thulaseedharan R, HOD, ME
Faculty-in-charge	- Mr. Anoop KT, Assistant Professor, ME
General Secretary	- Betson John Benny, S7 ME
Assistant General Secretary	- Fayas Muhammed, S5 ME
Treasurer	- Bhagath SA, S3 ME

2. About the membership and student chapters of professional bodies

Since various professional bodies are available, the primary concern was cost effectiveness for students. In this regard, the following professional bodies are chosen at stage 1:

- 1. Institution of Mechanical Engineers (IMechE):** Student affiliate registration is complimentary.
- 2. American Society of Mechanical Engineers (ASME):** Complimentary membership for first-year students and approximately ₹2400 for others.
- 3. Institution of Engineers India (IEI):** Student chapter registration for the institute is ₹650.

In Stage 2, in addition to the above professional bodies, the Society of Automotive Engineers India (SAE) and Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE) will also be introduced.

A threshold membership of 15-20 students per body will qualify the department to establish official student chapters.

3. About Science and technology awareness quiz

1. Targeting senior secondary schools in the following localities: Nilamel, Chadayamangalam, Ayoor, Anchal, Punalur, Pathanapuram, Pattazhy, Kunnicode, and Konni.
2. Students from the schools will be invited as a team of two members each to the institute for attending a workshop and quiz competition on science and technology. Official invitations will be sent to school managements with registration free of cost.
3. Upon requests from schools willing to participate, necessary travel arrangements will be provided by the campus.
4. The winning teams from each school will participate in the Mega finale round during Mech Fest with a cash prize pool of ₹10,000 awarded. An organizing team will be formed for execution.

4. About the organization of Stunt racing competition

1. Conducting a stunt racing competition was suggested by the students instead of the regular autoshow program.
2. The funding requirements, venue and planning, safety and legal criterions were discussed.
3. The sponsorship opportunities, advertisement opportunities and publicity were discussed.
4. The vision was to improve the popularity of the campus to attract more sponsors for the Mech Fest and future programs.

5. About the organization of Mech Fest

1. By default, the office bearers of the Mechanical Association will be the in-charges of MechFest.
2. The official launching ceremony of MechFest will be conducted during the Onam celebration event at the campus, accompanied by coupon distribution featuring the mega prize of an EV Scooter.
3. Coupon payments will be made via QR code scanning directly to the account maintained by the HOD in a nationalized bank.
4. Questions were raised by attendees regarding the coupon collection process, which were postponed to future discussions.

6. About skill development courses for the underprivileged

This is a socially relevant program to nourish skills by providing courses for free or minimal registration fee. Mechanical engineering students are invited to contribute and assist faculties in training alongside the technical staff.

1. **Welding:** Individuals with a minimum educational qualification of 7th grade or above will be trained in welding technologies.
2. **CNC:** Advanced CNC machining training will be conducted specifically for Diploma and B.Tech students to enhance industry readiness.
3. Execution will be handled by workshop technical staff, supervised by two designated faculty members and led by the HOD.

7. About product development initiatives

1. To establish a distinct brand identity, the department will pivot toward impact-driven product development with strong social relevance, lean manufacturing, and environmental sustainability.
2. The design and development of an eco-friendly incinerator will be taken up as the primary benchmark project.

8. About CAD lab development

1. **Infrastructure Reallocation:** It was decided to repurpose the former S3 classroom into a dedicated CAD Laboratory. Concurrently, faculty members in split cabins will relocate to the main faculty room located directly below the HOD's office.
2. Procurement and installation of necessary signage including the Department main board, HOD name board, Faculty Room signages, CAD Lab designation, and Vision & Mission display boards will be initiated.

Implementation Clause: All proposed items are subject to strategic adjustments in the interest of the department.

Endnote: Together, through visionary collaboration, social innovation, and dedicated teamwork, we will transform these forward-looking initiatives into impactful achievements for our department and community.
